A delicately scaled, modular system of interconnected elements and suspended LED luminaires.

suspenders®
assembly instructions
Triangle Truss (S2B)

Multiple U.S. and foreign patents granted and pending.
LED Product Information and Warnings

Important

- Always disconnect the power before installing or replacing parts and before cleaning or other maintenance.
- Consult a qualified, licensed electrician to ensure correct branch circuit conductor.

- Please read all included assembly instructions and warnings carefully before installation. Contact Customer Service if you have any questions or concerns. Before installation, please confirm that the fixture is compatible with your supply voltage and dimming system, if present.
- LEDs are highly sensitive electronic devices, and must be treated with care. Do not open any factory sealed compartments, and avoid touching the LEDs with your hands or any object.
- Although all our fixtures are equipped with protective devices, LED electronic systems are vulnerable to power surges and supply variations. Do not install LED fixtures on the same circuit as any motors, appliances, or HVAC systems.
- Do not remove or bypass any LED Driver or Transformer that is provided with the fixture, and do not replace or substitute with another power supply.
- Remote Transformer installation must be done by a licensed electrician and in accordance with local building and electrical codes. Remote installations should be in an accessible location, as close to the fixture as possible. The appropriate wire gauge must be used to limit the voltage drop to no more than 5%.
- Fixtures must be wired in parallel on independent leads; do not "daisy chain" multiple fixtures together or wire them in series.
- All factory-made splices and connections must remain intact. LED circuits are carefully designed and built, and improper connections may damage the fixture.
- Any mounting hardware is provided for your convenience and should be used with discretion. Always use the appropriate hardware for the mounting surface.
- To avoid excessive voltage drop, the longest electrical path from the Power Feed to the furthest Luminaire should not exceed 30 feet.
- Suspenders® transformers can be loaded up to 80% of their rated wattage.
- Suspenders® transformers feature short-circuit protection with automatic recovery, and will resume operation once the short-circuit condition is removed.
- Suspenders® transformers have 24V output, and are dimmable with Electronic Low Voltage dimmers ONLY.
- Suspenders® must be installed in dry locations ONLY.

Power Bars
Assembly Instructions

INSTRUCTIONS D’INSTALLATION

Tri-Bar Power Bar Assembly:
1. Insert one of the Arms onto the Center Hub, and secure with the four Phillips Screws (Fig. 1).
2. Repeat for the other Arm (Fig. 2).

Linear Power Bar Assembly:
1. The Linear Power Bar comes with a spacer clip pre-installed at the center of the Power Bar (Fig. 2).
2. If desired, the Spacer Clip can be removed using a Phillips Screwdriver (Fig. 4).
3. Power Bar must be supported at least every 4 feet.

Power Feed Hangers
Assembly Instructions

INSTRUCTIONS D’INSTALLATION

Single Cord Power Feed Hanger:

NOTE: Each Single Cord Power Feed Hanger only carries half of the electrical circuit, and must be used in pairs. To avoid short-circuiting the system, the spring contacts must point in different directions.

1. Install the Single Cord Power Feed Hanger onto the Power Bar:
   pass the Cord through the Power Bar, tip the Hanger 45 degrees and insert the copper springs into the center of the Power Bar, then push the Hanger up while tipping it back up 45 degrees (Fig. 1).
2. Cut the Cord to the desired length, and remove 10mm (3/8”) of insulation from the end of each Cord.
3. Twist the wire strands tightly, then insert the exposed wires into the Power Feed Bushings. Secure by tightening the Set Screws with the included Allen key.

Double Cord/Rod Power Feed Hanger:

1. Install the Double Cord (or Rod) Power Feed Hanger onto the Power Bar: press down firmly on the top of the Power Bar, while pressing up on the bottom of the Hanger, until the Power Bar clicks into place (Fig. 2).
2. For Cords:
   a. Cut the Cords to the desired length, and remove 10mm (3/8”) of insulation from the end of each Cord.
   b. Twist the wire strands tightly, then insert the exposed wires into the Power Feed Bushings. Secure by tightening the Set Screws with the included Allen key.
3. For Rods:
   a. Cut the Rods to the desired length, and remove 10mm (3/8”) paint from the end of each Rod using sand paper.
   b. Insert the exposed Rod into the Power Feed Bushings. Secure by tightening the Set Screws with the included Allen key.

In-Line Double Cord Power Feed Hanger:

1. Cut the Cords to the desired length, and remove 10mm (3/8”) of insulation from the end of each cord.
2. Twist the wire strands tightly, then insert the exposed wires into the Power Feed Bushings. Secure by tightening the Set Screws with the included Allen key.
3. Press down firmly on the top of the Power Bar, while pressing up on the bottom of the Hanger, until the Power Bar clicks into place (Fig. 3). Repeat for the second Power Bar.

Note: The In-Line Double Cord Power Feed Hanger connects the two Power Bars to the same electrical circuit. It does not increase the wattage capacity of the Power Feed.
**Power Feed Hangers**

**Assembly Instructions**

**INSTRUCTIONS D’INSTALLATION**

**In-Line Power Tap Hanger:**

1. Install **Double Cord Power Feed Hanger** to **Lower Power Bar** and connect to the **Power Feed** by inserting the exposed wires into the **Power Feed Bushings**. Secure by tightening the **Set Screws** with the included **Allen Key** (Fig. 1).
2. Install the **Upper Power Bar** between the two cords of the **Double Cord Power Feed Hanger** using appropriate hangers.
3. Remove **Cord Caps** from **Tap Hanger** by sliding them up and off the sides of the **Tap Hanger** (Fig. 2).
4. Position **Tap Hanger** under **Upper Power Bar** at junction with **Double Cord Power Feed Hanger** (Fig. 3). Press down firmly on top of the Upper Power Bar, while pressing up on the bottom of Tap Hanger, until Tap Hanger clicks into place (Fig. 4).
5. Press each cord into the slot on each side of the **Tap Hanger** (Fig. 5).
6. To secure cord electrical connection, align **Cord Cap** over slot on each side of the **Tap Hanger**, and position the notches on bottom of the Cord Cap to face toward Tap Hanger (Fig. 6), then firmly slide down into position (Fig. 6). Repeat on opposite side.
Ceiling Hangers
Assembly Instructions

INSTRUCTIONS D’INSTALLATION

Ceiling Hanger Assembly:
1. Install the **Mounting Bracket** to the ceiling with **Anchor** (if appropriate) and **Screw**, then screw the **Post** onto the Mounting Bracket (Fig. 1).
2. Pass the **Ceiling Hanger Rod/Cable** through the **Power Bar**, then through the center hole of the **Cover**, making sure the countersunk holes on the Cover are facing up. Attach the **Cover** to the **Hanger** using the two small **Phillips Screws** (Fig. 2).
3. For Hanger with **Stem**: Hand screw the **Stem** onto the Ceiling Hanger. (Fig. 2)
4. Attaching the **Ceiling Hanger Rod/Cable** into the **Post**:
   a. For Rod Hangers: Cut the **Rod** to the desired length, then insert the **Rod** into the **Post** and tighten the **Set Screw** with the **Allen Key** (Fig. 3).
   b. For Cable Hanger: Insert **Cable** into Post, then adjust to the desired length: to shorten, push the Cable up; to lengthen, push in the **Plunger** while pulling down on the cable, release the Plunger to lock. Cut off the excess cable where it exits the Post (Fig. 2).

Ceiling Hangers
Assembly Instructions
INSTRUCTIONS D’INSTALLATION

In-Line Ceiling Hanger Assembly:
1. Install the Mounting Bracket to the ceiling with Anchor (if applicable) and Screw, then screw the Post onto the Mounting Bracket (Fig. 1).
2. For Hanger with Stem: Hand screw the Stem onto the Ceiling Hanger (Fig. 2).
3. Attaching the Ceiling Hanger Rod/Cable into the Post:
   a. For Rod Hangers: Cut the Rod to the desired length, then insert the Rod into the Post and tighten the Set Screw with the Allen Key (Fig. 3).
   b. For Cord Hanger: Insert Cable into Post, then adjust to the desired length: to shorten, push the Cable up; to lengthen, push in the Plunger while pulling down on the cable, release the Plunger to lock. Cut off the excess cable where it exits the Post (Fig. 3).
4. Press down firmly on the top of the Power Bar, while pressing up on the bottom of the Hanger, until the Power Bar clicks into place. Repeat for adjacent power bar (Fig. 2).
Wall Mount System
Assembly Instructions

INSTRUCTIONS D’INSTALLATION

Wall Flush Mount Support:
1. Install the **Mounting Bracket** to the wall with **Anchor** (if applicable) and **Screw**, align set screw holes with the direction of **Power Bar**, then attach the **Support** onto the Mounting Bracket and tighten the two **Set Screws** with the **Allen Key** (Fig. 1).
2. Remove **Flat Head Screw** and **Support Cap** and align **Power Bar** with **Support** (Fig. 2).
3. Insert **Power Bar** into **Support**. Reattach **Support Cap** with **Flat Head Screw** (Fig. 3). **Note:** Wall Mount Support (1XB02WL00x) is to be used in conjunction with Wall Mount Standard Power Feed (1XA08WL01x) or Remote (1XA08WL02x).

Wall Mount Perpendicular Power Bar Hanger:
1. Install the **Mounting Bracket** to the wall with **Anchor** (if applicable) and **Screw**, align set screw holes with the direction of **Power Bar**, then attach the **Support** onto the Mounting Bracket and tighten the two **Set Screws** with the **Allen Key** (Fig. 1).
2. Insert **Power Bars** into **Support**. **Note:** Wall Mount Perpendicular Power Bar Hanger (1XB03WP00x) is to be used in conjunction with Wall Flush Mount Support (1XB02WL00x), Wall Flush Mount Offset Support (1XB02WL01x) (Fig 4), and Wall Flush Mount Standard Power Feed (1XA08WL01x) or Remote (1XA08WL02x) (Fig 4).
Ceiling Mount System
Assembly Instructions

Flush Rotational Power Bar Hanger:
1. Remove Flat Head Screw and both Hanger Caps (Fig. 1).
2. Align Power Bars with Hanger (Fig. 2). Press down firmly on the top of the Top Power Bar and bottom of Bottom Power Bar until the Power Bars clicks into place. Reattach Hanger Cap with Flat Head Screw (Fig. 3).
3. Insert Power Bar, into Support. Reattach Support Cap with Flat Head Screw (Fig. 3).

Ceiling Flush Mount Support:
1. Install the Mounting Bracket to the ceiling with Anchor (if applicable) and Screw, align set screw holes with the direction of Power Bar, then attach the Support onto the Mounting Bracket and tighten two Set Screws with the Allen Key (Fig. 1).
2. Remove Flat Head Screw and Support Cap and align Power Bar with Support (Fig. 2).
3. Insert Power Bar into Support. Reattach Support Cap with Flat Head Screw (Fig. 3). Note: Ceiling Flush Mount Support (1XB02CE00x) is to be used in conjunction with Ceiling Mount Standard Power Feed (1XA08CE01x).
Power Bar Hangers
Assembly Instructions

INSTRUCTIONS D’INSTALLATION

Perpendicular Power Bar Hanger:
1. Gently spread apart the **Power Bar** and insert the **Rods** of the **Perpendicular Power Bar Hanger** through the Power Bar (Fig. 1).
2. Tip the **Perpendicular Power Bar Hanger** 45 degrees and insert the copper springs into the center of the **Power Bar** (Fig. 2).
3. Push the **Perpendicular Power Bar Hanger** up while tipping it back up 45 degrees (Fig. 2).
4. Pass top portion of the **Perpendicular Power Bar Hanger** over the end of the **Power Bar** and press down firmly on the top of the **Power Bar Hanger** while pressing up on the bottom of the Power Bar, until the Power Bar Hanger clicks into place (Fig. 3).

Parallel Power Bar Hanger:
1. Pass one end of the **Parallel Power Bar Hanger** over the end of a **Power Bar** (Fig. 1).
2. Press down firmly on the top of the **Power Bar Hanger**, while pressing up on the bottom of the Power Bar, until the Power Bar Hanger clicks into place (Fig. 2).
3. Pass a second **Power Bar** between the rods of the **Power Bar Hanger** (Fig. 3).
4. Press down firmly on the top of the **Power Bar**, while pressing up on the bottom of the **Power Bar Hanger**, until the Power Bar clicks into place (Fig. 4).

**Fig. 1**

**Fig. 2**

**Fig. 3**

**Fig. 4**
Power Bar Hangers
Assembly Instructions

INSTRUCTIONS D’INSTALLATION

Perpendicular Power Bar Hanger v2:
1. Press down firmly on the top of the Power Bar Hanger, while pressing up on the bottom of the Power Bar, until the Power Bar Hanger clicks into place (Fig. 2).
2. Push up on the bottom of the Power Bar Hanger Cover, while pressing down on the bottom of the Power Bar, until the Power Bar Hanger Cover clicks into place (Fig. 3).
3. Pass top portion of the Perpendicular Power Bar Hanger over the end of the Power Bar and press down firmly on the top of the Power Bar Hanger while pressing up on the bottom of the Power Bar, until the Power Bar Hanger clicks into place (Fig. 3).
4. To remove the Power Bar Hanger Cover:
   Spread the Power Bar Hanger Cover apart using the index and middle finger of each hand and pull down on the cover while pushing up on the Power Bars with the thumbs.

Single and Double Rotational Power Bar Hanger:
1. Press down firmly on the top of the Power Bar Hanger Hub while pressing up on the bottom of the Power Bar, until the Power Bar Hanger Hub clicks into place (Fig. 1).
2. Insert the Hanger Clip through the Hanger Hub and press up on the Hanger Clip until Hanger Clip clicks into place (Fig. 2).
3. Press the Hanger Rod up against the Hanger Hub and screw in the Hanger Sleeve. Be sure that the brass contacts on the Power Bar Hanger Hub are touching those on the Hanger Rod (Fig. 3). NOTE: Do not fully tighten.
4. Rotate Power Bar to the desired position and secure by fully tightening the Hanger Sleeve (Fig. 4).
5. Repeat steps 1-4 for the second Power Bar.
Truss Hanger System:

1. Where applicable: Install the Mounting Bracket to the ceiling with Anchor (if applicable) and Screw, then screw the Post onto the Mounting Bracket (Fig. 1).

2. Insert Extension or End Arm into the remaining slot of the Bracket and secure it with the provided Arm Flat Head Screw (Fig. 2).

3. Where applicable: Insert the Cable into the Post and adjust to the desired length: to shorten, push the Cable up; to lengthen, push in the Plunger while pulling down on the Cable, release the Plunger to lock. Cut off the excess Cable where it exits the Post (Fig. 2).

4. Remove Cover Flat Head Screw and Bracket Cover and align Power Bar with the Bracket (Fig. 3).

5. Insert Power Bar onto the Bracket and reattach the Bracket Cover with Flat Head Screw (Fig. 4).

6. Repeat step 3 and 4 for each Bracket.
Power Bar Hangers
Assembly Instructions

**Flush Perpendicular Power Bar Hanger:**
1. Remove Flat Head Screws and both Hanger Caps (Fig. 1).
2. Align Power Bars with Hanger (Fig. 2). Press down firmly on the top of the Top Power Bar and bottom of Bottom Power Bar until the Power Bars clicks into place. Reattach Hanger Cap with Flat Head Screw (Fig. 3).

**In-Line Power Bar Connector:**
1. Align In-Line Connector with Power Bar (Fig. 1) and press down firmly on the top of the Power Bars, while pressing up on the bottom of the Connector until the Power Bars clicks into place (Fig. 2).

**Double Cord Power Bar Hanger:**

NOTE: Each Single Cord Power Feed Hanger only carries half of the electrical circuit, and must be used in pairs. To avoid short-circuiting the system, the spring contacts must point in different directions (Fig 1).
1. Align Hanger with Power Bars (Fig. 2) and press down firmly on the top (or bottom) of the Power Bar, while pressing up (or down) on the bottom of the Hanger, until the Power Bar clicks into place (Fig. 3).
**Luminaires and Luminaire Hangers**

**Assembly Instructions**

**INSTRUCTIONS D’INSTALLATION**

**Connecting an RPxx Luminaire to an ARxx, RPxx, and DRxx Double Luminaire Hanger (Fig. 1):**

1. Gently insert the two **Luminaire Hanger Rods** into the holes on the top of the **Luminaire**.
2. Rotate the **Luminaire** or **Luminaire Hanger** 90 degrees.
3. Push the **Luminaire Hanger** rods into the **Luminaire** until the copper on the ends of the rods is no longer visible.
4. Rotate the **Luminaire** or **Luminaire Hanger** back 90 degrees to lock.

**Connecting a Double Rod Luminaire Hanger to a Power Bar:**

1. Place the **Luminaire Hanger** over the **Power Bar** (Fig. 2).
2. Press down firmly on the top of the **Luminaire Hanger**, while pressing up on the bottom of the **Power Bar**, until the Luminaire Hanger clicks into place (Fig 3).
3. To remove, tip the **Luminaire Hanger** in the direction of the **Power Bar**, then lift the Luminaire Hanger off the Power Bar.
Luminaires and Luminaire Hangers
Assembly Instructions

INSTRUCTIONS D’INSTALLATION

Connecting a Parallel Luminaire Hanger to a Power Bar:
1. Place the Parallel Luminaire Hanger under the Power Bar.
2. Press up firmly on the bottom of the Parallel Luminaire Hanger, while pressing down on the top of the Power Bar, until the Parallel Luminaire Hanger clicks into place (Fig. 1).
3. To remove, tip the Parallel Luminaire Hanger in the direction of the Power Bar to release the Snap Hooks, then pull the Parallel Luminaire Hanger off the Power Bar (Fig. 3).

Connecting a Rotational Luminaire Hanger or Light Guide Disk Luminaire to a Power Bar:
1. Place the Rotational Luminaire Hanger Hub over the Power Bar.
2. Press down firmly on top of the Hub, while pressing up on the bottom of the Power Bar, until the Hub clicks into place (Fig. 2).
3. Press the Hanger Rod up against the Hanger Hub and screw in the Hanger Cap. Be sure the brass contacts on the Hanger Hub are touching those on the Hanger Rod (Fig. 3). NOTE: Do not fully tighten.
4. Rotate the Luminaire to the desired position and secure by fully tightening the Hanger Cap (Fig. 4).
Luminaires and Luminaire Hangers
Assembly Instructions

**Calla:**
1. Curl the **Petal** into a conical shape and align the two outer holes with each other (1).
2. Align **Petal** with the fixture **Branches** (2).
3. Secure **Petal** to **Branches** by hand screwing the two **Pins** onto the fixture for each Branch (3).

**Glass Cluster Luminaires:**
1. Place the **Triangle Spacer** in between the **Cables** of the fixture (Fig. 3). Snap the pendent **Cables** into the **Spacer** at three locations (Fig. 4). **Note:** Make sure **Glass Luminaires** are screwed on tightly.

---

**Leaf, Calla, Branches, Glass Cluster, V-Cord, and Monoline Luminaires:**
1. Align **Hanger** with **Power Bar** (Fig. 1) and press down firmly on the top of the Power Bar, while pressing up on the bottom of the Hanger, until the Power Bar clicks into place. (Fig. 2)
2. To remove, tilt hanger then pull down from **Power Bar** (Fig. 3).

---

2. To remove, tilt hanger then pull down from **Power Bar** (Fig. 3).

---

**Applies to Components:**
- **1XDXXCL14x-XX**
- **1XDXXCL16x-XX**
- **1XZ990007x**
- **1XZ990010x**

---

**Applies to Components:**
- **1XDXXCL13x**
- **1XDXXVClxx-xx**
Luminaires and Luminaire Hangers
Assembly Instructions

INSTRUCTIONS D’INSTALLATION

Connecting a Monoline™ Luminaire Hanger to a Power Bar:
1. Place the Monoline™ Luminaire Hanger under the Power Bar.
2. Press up firmly on both sides the bottom of the Monoline™ Luminaire Hanger, while pressing down on the top of the Power Bar, until the Luminaire Hanger clicks into place (Fig. 1).
3. Press down firmly on top of the Luminaire Hanger Cap, while pressing up on the Luminaire Hanger, until the Luminaire Hanger Cap clicks into place (Fig. 2).
4. To remove the Monoline™ Luminaire Hanger Cover:
   Spread the Monoline™ Luminaire Hanger Cover apart using the thumbs and press up on the cover, while pressing down on the Power Bar with the index and middle fingers. Tip the Monoline™ Luminaire Hanger in the direction of the Power Bar and press down on the Hanger, while pressing up on the Power Bar (Fig. 3).

Connecting a Monoline™ Luminaire to a Monoline™ Pendant Cordset:
1. Install the included G4 Bulb. (Fig. 4)
2. Raise the Glass and align the holes in the glass to the holes in the Pendant Cordset (Fig. 5). Secure the glass by inserting the Threaded Pins through the holes in the glass and screwing the pins into the Pendant Cordset (Fig. 6).
Luminaires and Luminaire Hangers
Assembly Instructions

INSTRUCTIONS D’INSTALLATION

Connecting a Luminaire Hanger Endcap to a Luminaire Hanger:
1. Gently insert the two Luminaire Hanger Rods into the holes on the top of the Luminaire Hanger Endcap (Fig. 1).
2. Rotate the Endcap or Luminaire Hanger 90 degrees (Fig. 2).
3. Push the Luminaire Hanger Rods into the Endcap until the copper on the ends of the Rods is no longer visible (Fig. 3).
4. Rotate the Endcap or Luminaire Hanger back 90 degrees (Fig. 4).
5. Pull the Endcap down to lock the Endcap (Fig. 5).

Connecting a Ladder Light onto a Luminaire Hanger:
NOTE: The Luminaire Hanger Endcap or a Luminaire must be installed before connecting a Ladder Light onto a Luminaire Hanger.
1. Gently press both sides of the Ladder Light onto the Luminaire Hanger until the Ladder Light softly clicks into place (Fig. 6).
2. Confirm the desired position of the Ladder Light on the Hanger, and adjust the position if necessary.
   CAUTION! The next step will put a set of small score lines through the paint on the Hanger Rods.
3. Place the index and middle fingers of each hand on the Hanger Rods on either side of the Ladder Light and press firmly on both sides of the Ladder Light with the thumbs until the Ladder Light fully clicks into place (Fig. 7).
**Luminaires and Luminaire Hangers**

**Assembly Instructions**

**INSTRUCTIONS D’INSTALLATION**

### Connecting a Light Bar onto a Power Bar:
1. Place the **Light Bar** on the **Power Bar**.
2. Press down firmly on the top of both ends of the **Light Bar**, while pressing up on the bottom of the **Power Bar**, until the Light Bar clicks into place (Fig. 1).

![Fig. 1](image1)

### Removing a Light Bar from a Power Bar:
1. Place the **Light Bar Removal Tool** underneath the end of the **Light Bar** (Fig. 2).
2. Press down firmly on the edge of the **Tool** to separate one side of the **Light Bar** from the **Power Bar** (Fig. 3).
3. Repeat steps 1-2 to separate other side of the **Light Bar**.
4. Lift the **Light Bar** off the **Power Bar** (Fig. 4).

![Fig. 2](image2)

### Suspended Light Bars:
1. Align **Hanger Subassemblies** with the **Light Bar**. Make sure the screw holes of the Hanger Subassembly align with the Light Bar (Fig. 1). **Note:** One hanger subassembly has conductors (live) that will engage with light bar once attached; the other does not (dead).
2. Insert **Hanger Subassembly** into **Light Bar** and secure with **Flat Head Screws** (Fig 2).
3. Align **Hanger** with **Power Bar** (Fig. 3) and press down firmly on the top of the Power Bar, while pressing up on the bottom of the Hanger, until the Power Bar clicks into place (Fig. 4).
4. Adjust the leveling of the **Luminaire** by loosening the **Set Screw** on the **Dead Hanger Subassembly** and lengthening or shortening the cord (Fig. 5).

![Fig. 3](image3)

---

**Applies to Components:**

- 1XDB04LB12x
- 1XDB04LB18x
- 1XDBXLBxx-5
- 1XDBXXLB12x
- 1XDBXXLB36x
- 1XDBXXLB24x
- 1XZ990005x
Luminaires and Luminaire Hangers
Assembly Instructions

INSTRUCTIONS D’INSTALLATION

Connecting Linear Rotational Luminaire to Single Rod Luminaire Hanger:
1. Align Linear Rotational Luminaire with both Hangers (Fig. 1).
2. Insert Luminare onto Hangers and secure with Set Screws (Fig. 2). Note: Luminaire can rotate 360° (Fig. 2).

Single Rod Luminaire Hanger:
1. Make sure Spring Contacts of each Hanger face opposite directions (Fig. 3).
2. Align Hanger with Power Bar (Fig. 4) and press down firmly on the top of the Power Bar, while pressing up on the bottom of the Hanger, until the Power Bar clicks into place. (Fig. 5)

Connecting Linear Rotational Luminaire to Single Rod Outrigger Luminaire Hanger:
1. Align Linear Rotational Luminaire with both Hangers (Fig. 1).
2. Insert Luminare onto Hangers and secure with Set Screws (Fig. 2). Note: Luminaire can rotate 360° (Fig. 2).
Luminaires and Luminaire Hangers
Assembly Instructions

INSTRUCTIONS D’INSTALLATION

Precise Blade Mount Hanger and Precise Bar-Mounted Aimable Light Engine:
1. Align Hanger with Power Bar (Fig. 1) and press down firmly on the top of the Power Bar, while pressing up on the bottom of the Plug, until the Power Bar clicks into place (Fig. 2).
2. Align Light Engine with Blade Mount Hanger (Fig. 1), connect Light Engine to Blade Mount Hanger (Fig. 2).
3. Secure Light Engine to Blade Mount Hanger by screwing on Retention Ring (Fig. 3).

Connecting an HCxx Luminaire to a Cluster Luminaire Hanger (Fig. 2):
1. Insert the two Rods of the Cluster Luminaire Hanger and the bottom Luminaire into the Center Hub.
2. Use the included Allen Key to tighten the four Set Screws.

Applies to Components:
1XDXXRH01x 1XDXXRH05x
1XDXXRH02x 1XDXXRH06x
1XDXXRH03x 1XB04RH00x
1XDXXRH04x 1XB04RH01x

Applies to Components:
1XDXXHCxxxx
1XB04HRxxxx
Luminaires and Luminaire Hangers
Assembly Instructions

INSTRUCTIONS D’INSTALLATION

Mezzaluna Luminaire:
1. Align Luminaire with Power Bar (Fig.1), press down firmly on the top of the Luminaire, while pressing up on the bottom of the Power Bar, until the Power Bar clicks into place (Fig. 2).

2. Mezzaluna Luminaires can be assembled on top or on the bottom of the Power Bar. Two Luminaires can be assembled in the same location of the Power Bar on opposite sides (Fig. 3).

Precise Direct Mount:
1. Align Luminaire with Power Bar (Fig. 1), press up firmly on the bottom of the Luminaire, while pressing down on the top of the Power Bar, until the Power Bar clicks into place (Fig. 2). Note: Precise Direct Mount Luminaires can be assembled on top or on the bottom of the Power Bar.

Connecting a Suspenders Precise Bar-Mounted Hub for Duplex Light Engines to a Power Bar:
1. Place the Hub over the Power Bar then press down firmly on top of Hub, while pressing up on the bottom of the Power Bar, until the Hub clicks into place (Fig. 1).
2. Attach the Hub Cover to the Hub, making sure the counter-sunk holes on the cover are facing inward. Secure using two small Thumb Screws (Fig. 2).
3. Install the Cylinder Light Engine to the Hub by inserting the contacts on the Hub into the slots on the Light Engine (Fig. 3), then twisting the Light Engine to the ends of the slots (Fig. 4). Note: Flip Hub Cover to change to single direction (Fig. 5).
Suspending Precise™ Trim Kits
Assembly Instructions

INSTRUCTIONS D’INSTALLATION

Connecting a Trim to a Cylinder Light Engine:
1. Insert the Trim Ring into the Shade. (Fig. 1)
2. Screw the Trim Ring into the Cylinder Light Engine. (Fig. 2)

Applies to Components:
1XZ010001x 1XZ010013x
1XZ010002x 1XZ010018x
1XZ010003x 1XZ010019x
1XZ010015x 1XZ0201xxx
1XZ010016x

Connecting a Trim to a Cylinder Light Engine:
1. Screw the Trim Ring into the Cylinder Light Engine (Fig. 1).

Power Precise Round Trims:
1. Align the Lens, Shade, and Bezel with each other (Fig. 3) then preassemble them together (Fig. 4).
2. Align the assembly from step 1 with the Light Engine (Fig. 5).
3. Screw the assembly from step 1 to the Light Engine (Fig. 5).

Applies to Components:
1XZ0202xxx 1XZ010005x
1XZ0203xxx 1XZ0206xxx

Connecting a Trim to a Cylinder Light Engine:
1. Insert the Trim Ring into the Shade. (Fig. 1)
2. Screw the Trim Ring into the Cylinder Light Engine. (Fig. 2)

Applies to Components:
1XZ010004x 1XZ010005x

Power Precise Round Trims:
1. Align the Lens, Shade, and Bezel with each other (Fig. 3) then preassemble them together (Fig. 4).
2. Align the assembly from step 1 with the Light Engine (Fig. 5).
3. Screw the assembly from step 1 to the Light Engine (Fig. 5).

Applies to Components:
1XZ0202xxx 1XZ0205xxx
1XZ0203xxx 1XZ0206xxx

Applies to Components:

**Susponders Precise™ Trim Kits**

**Assembly Instructions**

**INSTRUCTIONS D’INSTALLATION**

**Power Precise Square Trims:**

1. Align **Trim** with **Light Engine**, make sure to align the **Notch** found on the Trim to the **Set Screw** found on the Light Engine (Fig. 1).
2. Insert the **Trim** into the **Light Engine** (Fig. 2).
3. Secure the **Trim** by screwing in the **Set Screws** (Fig. 3).

**Precise Cell Luminaire Trims:**

1. Align **Trim Subassembly** with **Light Engine**. **Note: Beam Angle Mark** is visible on the **Trim Subassembly** (Fig. 1).
2. Snap **Trim Subassembly** into **Light Engine**, press up firmly on the bottom of the Trim Subassembly, while pressing down on the top of the Light Engine, until the Trim Subassembly clicks into place (Fig. 2). **Note:** Use the **Notch** on the enclosure to help detach the trim.

Power Feed Installation
Assembly Instructions

Important

• Always disconnect the power before installing or replacing components and before cleaning or other maintenance.
• Consult a qualified, licensed electrician to ensure correct branch circuit conductor.

Deep Power Feed Installation (Fig. 1):

1. Shut off power to the outlet box.
2. Attach the Crossbar to the outlet box using the two (2) long Screws.
3. Make appropriate electrical connections using wire nuts:
   a. Connect the Transformer’s live wire (black) to the live Outlet Box wire.
   b. Connect the Transformer’s neutral wire (white) to the neutral outlet box wire.
   c. Connect the ground outlet box wire (green or uncoated) to the crossbar using the green screw.
   d. Connect one of the Power Feed wires to one of the transformer output wires. Connect the other Power Feed wire to the second transformer output wire.
   e. Carefully place connections in outlet box.
4. For 300W Transformers: Attach the Transformer to the Power Feed using the two (2) Small Screws.
   For 60W and 75W Transformers: Place the Transformer inside the Power Feed.
5. Install the Power Feed to the Crossbar by passing the Threaded Nipple through the hole in the Power Feed and securing with the Canopy Nut.

Shallow Single Double Power Feed Installation (Fig. 2):

1. Shut off power to the Outlet Box.
2. For remote transformer use: The Transformer must be installed in an accessible location in accordance with local electrical codes. You must use the appropriate wire gauge from the Transformer to the Power Feed to limit the voltage drop to less than 5%.
3. Make appropriate electrical connections using wire nuts:
   a. Connect the Transformer’s live wire (black) to the live Outlet Box wire.
   b. Connect the Transformer’s neutral wire (white) to the neutral Outlet Box wire.
   c. Connect the ground Outlet Box wire (green or uncoated) to the Mounting Plate using the green screw.
   d. Connect one of the black Power Feed wires to one of the Transformer output wires. Connect the other black Power Feed wire to the second Transformer output wire.
   e. Carefully place connections in Outlet Box.
4. Attach the Mounting Plate to the Outlet Box using the two (2) Screws.
5. Attach Power Feed to Mounting Plate. Secure using Set Screws and included Allen key.
6. To adjust orientation of bushings:
   Loosen Set Screws using included Allen Key and rotate Power Feed to the desired position.

Note

• This fixture is dimmable with Electronic Low Voltage (i.e., Trailing-Edge/Reverse Phase) type dimmers ONLY.
Suspenders® - Flat Truss Configuration
Assembly Instructions

**Important**
- Always disconnect the power before installing or replacing components and before cleaning or other maintenance.
- Consult a qualified, licensed electrician to ensure correct branch circuit conductor.

*Consulter un électricien qualifié pour vous assurer que les conducteurs de la dérivation sont adéquats.*

1. Shut off power to the outlet box.
2. Assemble the **Power Feed** as shown on page 25.
3. Connect the **Upper Power Bars** and **Cross Power Bars** using the **Flush Perpendicular Power Bar Hangers** as shown on page 12.
4. Connect the **Lower Power Bar** to the **Cross Power Bars** using the **Truss End Kits** as shown on page 11.
5. Connect the **Upper Power Bars** to the ceiling using the **Ceiling Hangers** as shown on page 11.
6. Connect the **Power Feed Hanger** to the **Power Feed** and **Upper Power Bar** as shown on page 3.
7. Connect the **Upper Power Bars** and **Lower Power Bar** using the **Double Cord Power Bar Hanger** as shown on page 12.
8. Connect the **Luminaires** and **Luminaire Hangers** (if applicable) to the **Power Bars** as shown on pages 13-21.
9. Restore power to the outlet box.

**Note**
- This fixture is dimmable with Electronic Low Voltage (i.e., Trailing-Edge/Reverse Phase) type dimmers ONLY.
